Objective

I am a motivated student pursuing a degree in computer science with an overall 4.0 GPA. I am seeking a summer internship/ Co-op opportunity to apply the skills I have developed in college and through work experience. I am eager to build technology solutions, collaborate with others, and contribute to impactful projects. I am excited to showcase my programming and problem-solving skills while making a meaningful difference. I aim to bring my knowledge of multiple platforms to the table as well as my passion to innovate.

Work Experience

Cox Enterprises — Atlanta, GA

May 2026 – Present

AI/Automation Intern

- Developed RPA solutions to eliminate manual customer processes and improve operational efficiency.
- Built agentic AI agents to automate complex, multi-step workflows.
- Created dashboards and reports to communicate automation performance metrics to customers.
- Developed multiple end-to-end automations using UiPath Studio.
- Selected as 1 of 144 interns from a pool of 20,000+ applicants' company wide.

Ace Hardware — Acworth, GA

May 2022 – January 2023

Sales Associate

- Provided customer service, managed inventory, top converter of loyalty members for multiple months.

Mowing Lawns — Acworth, GA

May 2023 – October 2023

- Learned to create and manage a schedule of customers. Practiced confidence by knocking doors to generate sales.

IT Projects

SafeHome Game – Python text-based adventure game with multiple features, visuals, and timed decisions.

Assignment Manager (Used by GHC Professors) – (Python, GitLab API, Claude API, Backend + Frontend, Textual, SQLite Database)
Built an assignment builder that works with GitLab, PyCharm, and Claude to send out problem set labs. Helps professors at GHC automate a manual process, saving time to invest into students. Contains a chat bot so professors can create assignments with a prompt.

Certifications

Anthropic Generative AI Development | UiPath Automation Associate Training | UiPath Automation Explorer Training | Office 365

Skills

- Familiar and fluent in Python, PyCharm, GitLab, GitHub, UiPath Studio, UiPath Orchestrator, and Visual Studio Code.
- Experience in trading futures through the TopstepX platform; interpreting data and trends, acting on decisions quickly.
- Learned how to manage time by performing well in the classroom, on the field, and at a part-time job.
- Relevant Coursework: Networking, Calculus I & II, Discrete Mathematics, Computer Science I & II.
